The MAILING DATE of this communication app Period for Reply	ears on the cover sheet with the c	orrespondence address			
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.  - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3744

## **DETAILED ACTION**

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

- (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 1-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bilski et al (6,351,381).

Bilski et al discloses a cooling installation (Fig. 1) including a heat exchanger and a plurality of parallel operated heat exchangers (cold plates 103) housed in a heat exchanger cabinet having an interior coupled to an air inlet opening and an air outlet opening (Fig. 1), cold air supplied to the cabinet being conducted over a heat exchanger and cooling a coolant flowing therein (liquid to air heat exchanger 212), a water inflow and return flow of one of the heat exchange being connected with a feed line and return line of each of the switchgear cabinets to be cooled (134, 135 in Fig. 2), the heat exchanger being installed in an inclined position (Fig. 2), the parallel heat exchangers being arranged horizontally aligned (at 103 in Fig. 2) and nearly fill the interior of the heat exchanger cabinet (Figs. 1 and 2), a pump in the water flow line (215), a fan positioned on the heat exchanger cabinet and having an opening connected with the interior (Fig. 1), a fan removing air from the interior (Fig. 1).

Application/Control Number: 10/559,947 Page 3

Art Unit: 3744

Bilski et al does not disclose an air inlet located in the cabinet bottom, the heat exchanger extending over an entire height of the interior, the parallel heat exchangers being arranged on top of each other, or an expansion vessel in the water line. However, it would have been obvious to one of ordinary skill in the art to position an air inlet in the cabinet bottom, to use a heat exchanger extending over an entire height of the interior, to arrange the parallel heat exchangers vertically rather than horizontally as a matter of engineering design choice, and to provide an expansion vessel in the water line for improved functioning of the water based cooling system.

- 3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Chrysler et al, Patel et al, Chu et al, and Ellsworth et al are cited to show relevant cooling installations.
- 4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Teresa J. Walberg whose telephone number is 571-272-4790. The examiner can normally be reached on M-F 8:00 4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cheryl Tyler can be reached on 571-272-4834. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
